# PROFESSIONAL PRACTICE AND ETHICS

(COLLEGE EXAMINATION IN FINAL YEAR)

Total -15 HRS

#### **COURSE DESCRIPTION:**

This subject would be taught in continuum from first year to final year. An exam in theory would be conducted only in final year. Professional and ethical practice curriculum content addresses the Knowledge, Skills and Behaviors required of the physiotherapist in a range of practice relationships and roles. The course will discuss the role, responsibility, ethics administration issues and accountability of the physical therapists. The course will also cover the history and change in the profession, responsibilities of the professional to the profession, the public and to the health care team. This includes the application of professional and ethical reasoning and decision-making strategies, professional communication.

#### **OBJECTIVES:**

# At the end of the course the candidate will be compliant in following domains: Cognitive:

- a) Be able to understand the moral values and meaning of ethics
- b) Will acquire bedside manners and communication skills in relation with patients, peers, seniors and other professionals.

#### **Psychomotor:**

- a) Be able to develop psychomotor skills for physiotherapist-patient relationship.
- b) Skill to evaluate and make decision for plan of management based on sociocultutural values and referral practice.

#### **Affective:**

- a) Be able to develop behavioral skills and humanitarian approach while communicating with patients, relatives, society at large and co-professionals.
- b) Be able to develop bed side behavior, respect & maintain patients' confidentiality.

# **PATHOLOGY**

[DIDACTIC -50 HRS]

#### **COURSE DESCRIPTION:**

Students will develop an understanding of pathology underlying clinical disease states involving the major organ systems and epidemiological issues. Students will learn to recognize pathology signs and symptoms considered red flags for serious disease. Students will use problem-solving skills and information about pathology to decide when referrals to another health care provider or alternative interventions are indicated. Students will develop the ability to disseminate pertinent information and findings, and ascertain the appropriate steps to follow.

The course more deals with structural impairments as an important part in ICF Classification.

|         |                               | 50       |
|         | TOTAL                         |          |

#### **OBJECTIVES:**

At the end of the course, the candidate:

#### **Cognitive:**

- a) Will have sound knowledge of concepts of cell injury & changes produced by different tissues, organs and capacity of the body in healing process.
- b) Acquire the knowledge of general concepts of neoplasia with reference to the Etiology, gross & microscopic features, & diagnosis, in different tissues, & organs of the body.
- c) Acquire knowledge of common immunological disorders & their resultant effects on the human body.

# **Psychomotor:**

- a) Recall the Etiology–pathogenesis, the pathological effects & the clinico–pathological correlation of common infections & non-infectious diseases.
- b) Understand in brief, about the common Haematological disorders & investigations necessary to diagnose them.
- c) Correlate normal & altered morphology of different organ systems in different diseases needed for understanding disease process & their clinical significance

#### **OBJECTIVES:**

At the end of the course, the candidate will

- 1. Have sound knowledge of prevalent communicable diseases and the agents responsible for causing clinical infections, pertaining to C.N.S, C.V.S, Musculoskeletal system, Respiratory system, Genitourinary system, wound infections and of newer emerging pathogens
- 2. Know the importance and practices of best methods to prevent the development of infections in self and patients (universal safety precautions)

# **PHARMACOLOGY**

[DIDACTIC - 50 hrs]

#### **COURSE DESCRIPTION:**

This course covers the basic knowledge of Pharmacology including administration, physiologic response and adverse effects of drugs under normal and pathologic conditions. Topics focus on the influence of drugs in rehabilitation patient/client management. Drugs used in iontophoresis and phonoporesis will be discussed in detail.

| Sr. No. | Topics                        | Didactic |

|         | TOTAL                         | 50       |

#### **OBJECTIVES:**

At the end of the course, the candidate will be able to:

#### **Cognitive:**

- a. Describe Pharmacological effects of commonly used drugs by patients referred for Physiotherapy; list their adverse reactions, precautions, contraindications, formulation & route of administration.
- b. Identify whether the pharmacological effect of the drug interferes with the Therapeutic response of Physiotherapy & vice versa
- c. Indicate the use of analgesics & anti-inflammatory agents with movement disorders with consideration of cost, efficiency, & safety for individual needs.

#### **Psychomotor:**

Get the awareness of other essential & commonly used drugs by patients- The bases for their use & common as well as serious adverse reactions.

# PSYCHIATRY (INCLUDING PSYCHOLOGY)

[Didactic 30hrs + Clinical 20hrs]- TOTAL 50HRS

# **COURSE DESCRIPTION:**

The course design increases awareness of psychosocial issues faced by individuals. Their significance at various points on the continuum of health and disability should be emphasised. The course discusses personal and professional attitudes and values as they relate to developing therapeutic relationships. It emphasizes on communication skills for effective interaction with patients, health-care professionals and others. It expects students to identify common psychiatric conditions.

| Section A-Q-1  | MCQs – based on MUST KNOW area of PSYCHIATRY                          | on (1x10)  | 10    |
| Section-B-Q-2  | SAQ- Questions based on <b>PSYCHOLO</b> to answer any FIVE out of SIX | OGY (5x 3) | 15    |
| Section C- Q-3  SAQ – Questions based on PSYCHIATRY to answer any THREE out of FOUR (3x 5) |   |            | 15    |
|  | Total Marks   |            | 40    |

# **CLINICAL EXAMINATION: (College Examination only)**

- 1. Case presentation will be taken at the end of preliminary examination
- 2. Case presentation :History taking : 20 marks + Communication skills : 20 marks

  Total: 40 marks

#### **INTERNAL ASSESMENT:**

- 1. Two exams Terminal and preliminary examination (Theory only)
- of 40 marks each TOTAL 80 marks
- 2. Internal Assessment to be calculated out of 10 marks (Theory only)
- 3. Internal assessment as per University pattern.

# **KINESIOLOGY**

**DIDACTIC-80 HRS** 

#### **COURSE DESCRIPTION:**

This course is based on anatomical, physiological & related kinesiological principles for normal human movement. Students have the opportunity to develop and acquire understanding of kinesiological responses for the efficacy in various kinesiotherapeutic applications.

| Sr. | Topics                                 | Didactic |
|-----|--|----------|
| No  |  | Hours    |
| 1.  | INTRODUCTION TO BIOMECHANICS           | 20       |
| 2.  | REGIONAL KINESIOLOGY                   | 40       |
| 3.  | KINETICS AND KINEMATICS OF GAIT & ADLs | 20       |

**Objective** – At the end of the course, the candidate will be able to –

- 1. Understand the principles of Biomechanics.
- 2. Acquire the knowledge of kinetics and kinematics of Spine, Extremities, Temporo-Mandibular joint, Thoracic cage
- 3. Acquire the knowledge of Musculo skeletal movements during normal Gait and Activities of Daily Living

| Sr. No. | TOPICS  | DIDACTIC<br>HOURS |

# ${\bf INTERNAL\,ASSESSMENT-(THEORY)}$

- 1. Two exams Terminal and preliminary examination of 80 marks each TOTAL 160 marks
- 2. Internal Assessment to be calculated out of 20 marks.
- 3. Internal assessment as per University pattern.

# KINESIOTHERAPY

Didactic-80 Hrs + Practical/ Laboratory-160 HRS [TOTAL - 240 HRS]

#### **COURSE DESCRIPTION:**

This course is based on anatomical and physiological & related kinesiological principles for normal human movement and for the efficacy in the assessment methods for mobility, muscle strength. Students have the opportunity to develop and acquire understanding of physiological responses to various types of training and develop skills of exercise programs (on models). Exercise components of muscle strength, flexibility, balance, breathing and gait are examined. Evidence of appropriate, safe and effective exercise design and proper exercise biomechanics and prescription parameters are addressed with all interventions.

#### **OBJECTIVES:**

At the end of the course, the candidate will be able to

#### **Cognitive:**

Describe the Biophysical properties of connective tissue, & effect of mechanical loading, & factors which influence the muscle strength, & mobility of articular & periarticular soft tissues.

#### **Psychomotor:**

- 1. Apply the biomechanical principles for the efficacy in the assessment methods for mobility, muscle strength
- 2. Acquire the skill of subjective and objective assessment of individual & group muscle strength
- 3. Acquire the skills of subjective and objective methods of muscle strengthening
- 4. Describe the physiological effects, therapeutic uses, merits / demerits of various exercise modes including Hydrotherapy
- 5. Demonstrate various therapeutic exercises on self;& acquire the skill of application on models with Home Programs
- 6. Analyze normal Human Posture [static & dynamic].
- 7. Acquire the skill of functional re-education techniques on models
- 8. Acquire the skill of Balance and Coordination Exercises
- 9. Acquire the skill of using various walking aids for Gait Training
- 10. Acquire the skill of demonstrating breathing exercises and retraining on self and others
- 11. Acquire the skill of demonstrating Postural Drainage on models

**PRACTICAL:** Chapter No: 1(b, c, d & e) 2, 4, 5, 6 & 7

#### RECOMMENDED TEXT BOOKS

- 1. Progressive Resisted Exercises Margaret Hollis,
- 2. Therapeutic Exercise foundation and techniques Carolyn Kisner
- 3. Muscle Testing -Daniel Kendall
- 4. Principles of Exercise Therapy Dena Gardiner

# RECOMMENDED REFERENCE BOOKS

- 1. Therapeutic Exercise Basmajian & Wolf.
- 2. Orthopedic Evaluation Magee
- 3. Cash's Textbook for Physiotherapists in Chest, Heart & Vascular diseases
- 4. Physical Rehabilitation- O'Sullivan

# SCHEME OF UNIVERSITY EXAMINATION

| THEORY  |   | Marks |
|---|---|-------|
| 80 MARKS + I.A. – 20 MARKS  * The question paper will give appropriate weightage to all the topics in the syllabus. |   |       |
| Section A- M.C.Q.   | Q-1 - MCQs – based on MUST KNOW area [1 x 20]             | 20    |
| Section B- S.A.Q.   | Q-2 - Answer any FIVE out of SIX [5 x 3 =15]              |       |
| Section B- S.A.Q.   | Q-3- Answer any THREE out of FOUR $[3 \times 5 = 15]$     | 30    |
|   | * Based on topics 1( c, d & e), 2, & 7                    |       |
|   | Q-4] L.A.Q - 15 marks                                     |       |
|   | Q-5] -15 marks  |       |
| Section C -L.A.Q.   | OR  | 30    |
|   | Q-5] -15 marks  |       |
|   | LAQ should give break up of 15 marks $-$ e.g. [ $3+5+7$ ] |       |
|   | Total Marks   | 80    |

| PRACTICAL<br>80 MARKS + I.A | - 20 MARKS   | Marks<br>100 |
|-----------------------------|--|--------------|
| LONG CASE                   | Muscle Strengthening / Mobility /Bronchial hygiene (On models)   | 35           |
| SHORT CASE                  | Two Short cases on M.M.T. /Coordination/Posture/Gait (Measurable parameters only as mentioned in chapter 6-a) / Walking aids/ Functional Reeducation / Breathing Exercises 2 x 20 = 40 marks | 40           |
| JOURNAL                     | Documentation- Principles & applications for various Kinesiotherapeutics.  | 5            |
|                             | Total Marks  | 80           |

# **INTERNAL ASSESSMENT:**

- 1. Two exams Terminal and preliminary examination (Theory & Practical) of 80 marks each TOTAL 160 marks.
- 2. Internal Assessment to be calculated out of 20 marks.
- 3. Internal assessment as per University pattern.

# **ELECTROTHERAPY**

Didactic –100 hrs+ Practical / Laboratory –200 hrs [**TOTAL - 300 HRS**]

#### **COURSE DESCRIPTION:**

This course tends to explore fundamental skills in application of electrotherapeutic modalities and knowledge of indications, contraindications and physiological principles needed for appropriate patient care. It includes topics such as Electrical stimulation, T.E.N.S., Iontophoresis, Ultrasound / Phonophoresis, Diathermy and Electro diagnostic testing etc.

| Sr. | Topic                     | Didactic | Practical | Total |

| No. |                           |          |           |       |
| 1   | PAIN                      | 003      | -         | 003   |
| 2   | LOW FREQUENCY CURRENTS    | 037      | 085       | 122   |
| 3   | MEDIUM FREQUENCY CURRENTS | 008      | 022       | 030   |
| 4   | BIOFEEDBACK               | 005      | -         | 005   |
| 5   | HIGH FREQUENCY CURRENTS   | 012      | 028       | 040   |
| 6   | SOUND                     | 010      | 025       | 035   |
| 7   | ACTINOTHERAPY             | 015      | 025       | 040   |
| 8   | ELECTROTHERAPY: WOUNDCARE | 010      | 015       | 025   |
|     | TOTAL                     | 100      | 200       | 300   |

#### **OBJECTIVES:**

At the end of the course, the candidate will be able to:

#### **Cognitive:**

- 1. Acquire the knowledge about the physiology of pain, Pain pathways & Methods of pain modulation, selection of appropriate modality for Pain modulations.
- 2. Describe the Physiological effects, Therapeutic uses, indication & contraindications of various Low/ Medium & High Frequency modes / Actinotherapy
- 3. Describe the Physiological Effects & therapeutic uses of various therapeutic ions & topical pharmaco -therapeutic agents to be used for the application of iontophoresis & sono/phonophoresis

#### **Psychomotor:**

- Acquire the skills of application of the Electro therapy modes on models, for the purpose of Assessment & Treatment.
- 2. Acquire an ability to select the appropriate mode as per the tissue specific & area specific application.

| 8          | ELECTROTHERAPY: WOUNDCARE  | 10                | 15                 | 25             |
|            | <ul><li>i. Types of wound</li><li>ii. Application of Therapeutic currents,</li><li>Ultrasound, U.V.R. &amp; LASER</li></ul>  |                   |                    |                |

# **PRACTICAL:**

Skills of application to be practiced on models in No-1 to 8 above

# RECOMMENDED TEXT BOOKS

- 1. Clayton's Electro Therapy
- 2. Electro therapy Explained Low & Reed
- 3. Electro Therapy Kahn
- 4. Therapeutic Electricity Sydney Litch
- 5. Electrotherapy Evidence Based Practice Sheila Kitchen

# RECOMMENDED REFERENCE BOOK

1. Clinical Electro Therapy – Nelson & Currier

#### SCHEME OF UNIVERSITY EXAMINATION

| THEORY                         |  | Marks |
|--------------------------------|--|-------|
| 80 MARKS + I.A                 | - 20 MARKS   |       |
| * The question paper syllabus. | er will give appropriate weightage to all the topics in the  | 100   |
| Section A-<br>M.C.Qs.          | Q-1-MCQs – based on MUST KNOW area [ 1 x 20]   | 20    |
| Section B- S.A.Q.              | Q-2 - Answer any FIVE out of SIX [5 x 3 =15] [MUST KNOW area]  | 30    |
|                                | Q-3- Answer any THREE out of FOUR [3 x 5 =15] based on Actinotherapy (I.R./U.V.R./LASER)                   |       |
| Section C.I. A.O.              | Q-4] Based on High frequency modalities -15 marks Q-5] Based on Low/Medium freq. modalities -15 marks OR   | 30    |
| Section C-L.A.Q.               | Q-5] Based on Low /Medium freq. modalities -15 marks LAQ should give break up of 15 marks – e.g. [ 3 +5+7] | 30    |
|                                | Total Marks  | 80    |

| PRACTICAL       |   | Marks |
|-----------------|---|-------|
| 80 MARKS + I.A. | – 20 MARKS  | 100   |
| LONG CASE       | Motor points /Strength Duration Curve / Faradism under pressure (On models)   | 35    |
| SHORT CASES     | <ol> <li>Based on Low or Medium Frequency modalities / High Frequency modalities</li> <li>Actinotherapy         (I.R./U.V.R.)</li></ol> | 40    |
| JOURNAL         | Documentation- Principles & applications for various Electrotherapy Modalities.   | 5     |
|                 | Total Marks   | 80    |

# **INTERNAL ASSESSMENT:**

- 1. Two exams Terminal and preliminary examination (Theory & Practical) of 80 marks each TOTAL 160 marks.
- 2. Internal Assessment to be calculated out of 20 marks
- 3. Internal assessment as per University pattern

# SCHEME OF UNIVERSITY EXAMINATIONS AT A GLANCE - II B.P.Th.

| Subjects              | Theory     |      |       | Practical  |      |       |
|-----------------------|------------|------|-------|------------|------|-------|
|                       | University | I.A. | Total | University | I.A. | Total |
| Pathology &           | 50 + 30    | 20   | 100   |            |      |       |
| Microbiology          |            |      |       |            |      |       |
| Pharmacology          | 40         | 10   | 50    |            |      |       |
| Psychiatry (including | 40         | 10   | 50    |            |      |       |
| Psychology)           |            | 10   |       |            |      |       |
| Kinesiology           | 80         | 20   | 100   |            |      |       |
| Kinesiotherapy        | 80         | 20   | 100   | 80         | 20   | 100   |
| Electrotherapy        | 80         | 20   | 100   | 80         | 20   | 100   |
|                       |            |      |       |            |      |       |
| Total                 | 400        | 100  | 500   | 160        | 40   | 200   |
