Best Practices in Cardiovascular Physiotherapy Lab

1. Students behave in a very responsible manner while attending the lab. Hygiene and maintenance of the lab is voluntarily maintained by student in-charges.
2. Equipment register, lab utility register and departmental file is well maintained and timely updated by HOD.
3. Practical sessions are conducted in the lab with the help of real time visualization AV mode.
4. Students are freely allowed to use the lab equipments as and when they required to and also they have been given orientation on regular basis equipments used in the lab.
5. Various international days are celebrated in the lab, which enhances our students to get the awareness of the days celebrated globally.
6. Charts and models are made by our students and the same is placed around the lab in order to increase their creativity in lab.
7. Repeated practical sessions and additional classes are also held for slow learners.
8. Swaccha Bharat Abhiyan conducted as per the direction.
