

Once students get admitted in Dhole Patil College of Physiotherapy each student is allotted with a TG (teacher guardian) for day to day interaction regarding their academics, extra-curricular interests, health issues, family/personal problems etc. so that they can be their mentor cum friend so as to support and guide them accordingly in their highs and lows during college and hostel life and student phase. TGs make sure their students aren't facing any ragging issue and if any incident occurs, TG is the first person student can inform directly without any fear. They also coordinate with the surprise visits to the hostel rooms of the fresher and are in contact with the parents through "TG calling" and meetings.
